Power	10W
Beam Angle	120°
Color Temperature	3000K-6500K
Input Voltage	5V
Luminous Flux	500lm
Battery Milliampere	2000mA

Applications:

Support and Services:

Technical Support and Service for Outdoor LED Light Bulbs

Our technical support staff are available to answer questions and provide guidance on installation, maintenance, and troubleshooting. We also offer an extensive library of online resources and FAQs that can help you quickly resolve any issues you may have.

If you encounter any issues with your outdoor LED light bulbs, our friendly and knowledgeable customer service team is available to provide assistance. We can provide replacement parts and help you troubleshoot any technical issues you may be having.

We are committed to providing top-notch customer service and technical support. If you have any questions or concerns about our outdoor LED light bulbs, please do not hesitate to contact us.

Packing and Shipping:

For Outdoor LED Light Bulbs, packaging must be done properly to protect the product from damage during shipping. The following steps should be taken when packaging Outdoor LED Light Bulbs:

The Outdoor LED Light Bulbs should first be placed into a sealed plastic bag to protect them from moisture.

The bulbs should then be placed into a separate box to prevent them from being damaged or scratched during shipping.

The box should be filled with cushioning material such as bubble wrap or packing peanuts to further protect the bulbs.

The box should be clearly labeled with the product name, quantity, weight, and other relevant information.
